

Dear Valued Client,

I am very pleased to announce effective March 1, 2007, the ProBusiness Division of ADP will be changing its name to ADP National Account Services, Pleasanton National Service Center. The name change will not affect your daily operations, and everything will remain "business as usual". Your interactions with our account managers and associates will remain the same, and you can still expect the *World Class Service* you have grown accustomed to receiving over the years.

You will see our new name on your invoices, beginning March 9, 2007. We are currently working with our clients' banks to ensure a smooth transition for financial transactions, and do not anticipate any action on your part.

Changing our name to the Pleasanton National Service Center better aligns our region with the rest of ADP National Account Services, enabling us to provide you with the best possible solutions for your everyday business needs. Over the last six months, we have successfully built *ProBusiness*® Payroll user-interfaces for several products, including TotalPay® and Time and Labor Management. By integrating our product portfolio with additional ADP products and services, we are better positioned to fulfill your complex transactional requirements.

We look forward to helping your organization streamline and simplify your daily operations in the future — and most of all — we thank you for your continued partnership.

If you should have any questions about the name change, please contact your account manager.

Pam Durkin
Division Vice President and General Manager
ADP National Account Services, Pleasanton NSC
